16 November 1987

MEMORANDUM FOR: Chief, Management and Liaison Staff, OC

25X1 FROM:

Chief, Management and Plans Branch, OC-MLS

SUBJECT: Weekly Staff Notes, 8 - 14 November 1987

1. General:

25X1 a. [] working in coordination with members of the Engineering Division's standards group, has made the necessary arrangements for a guest speaker from the National Bureau of Standards (NBS) to address the DCO's monthly staff meeting on 16 November. In his briefing, Mr. Jerry Mulvenna, who is Manager of the Network Applications Group at the NBS Institute for Computer Science and Technology (ICST), will discuss recent progress in the implementation of computer protocols based on the International Standards Organization model for Open Systems Interconnection (OSI). He will also describe the function of the NBS in bringing about implementation of Government Open Systems Interconnection Profile (GOSIP) as a federal information processing standard. GOSIP is dedicated to reducing technical barriers to interoperability among government information systems and improving the availability of commercial off-the-shelf technology.
